VITC

Vegetology Vit C contains 500mg Vitamin C and 100mg Citrus Bioflavonoids, which are important and powerful antioxidants. Our bodies can't make or store Vitamin C, so we need to obtain it from our diet, but it can easily be destroyed by cooking and freezing food. Our formula is scientifically formulated to help optimise absorption and support a healthy immune system whilst being gentle on the stomach.

Key Benefits

Vitamin C contributes to:

- normal function of the immune system during and after intense physical exercise
- normal collagen formation for the normal function of blood vessels, bones, cartilage, gums, skin, and teeth
- normal energy-yielding metabolism
- normal functioning of the nervous system
- normal psychological function
- protection of cells from oxidative stress
- reduction of tiredness and fatigue
