VITD3

Vegetology Vit D3 comes from a special, organic plant source called a lichen and is produced without harmful pesticides, solvents or harming animals. Each tablet provides 25µg (1000iu) of Vitamin D3, the same form of Vitamin D produced by the body after exposure to sunlight, ensuring optimum absorption and support for the normal function of the immune system.

Key Benefits

Vitamin D contributes to:

- maintenance of normal bones, teeth, and muscle function
- normal function of the immune system
- normal blood calcium levels
